### How to Control The LED Lightbox for LED Furniture or Table Centres

If you are hiring LED Table Centres or LED Furniture from us, you may like to know how to control the lighting yourself. The LED Lightbox (pictured below) is used to illuminate our LED furniture and table centres. Here we provide a handy user guide that you can refer to, to help you to control your lighting on the day of your event.

## Contents:

1. How to control the LED lightbox via the remote control
2. How to control the LED lightbox via the Android Tablet

## 1. How to control the LED lightbox via the remote control

- TURN ON THE LIGHT(S) USING THE 'POWER ON' BUTTON IN THE TOP RIGHT HAND CORNER OF THE REMOTE CONTROL
- TURN OFF THE LIGHT(S) USING THE 'POWER OFF' BUTTON IN THE TOP RIGHT HAND CORNER OF THE REMOTE CONTROL
- CHANGE THE EFFECT USING THE 6 BUTTONS AT THE TOP OF THE REMOTE CONTROL
- CHOOSE ONE OF THE 10 STATIC COLOURS ON THE LEFT HAND SIDE OF THE REMOTE CONTROL
- ADJUST THE EFFECT SPEED USING THE ARROWED BUTTONS ON THE THIRD ROW FROM THE LEFT
- CHOOSE THE RUNTIME FOR THE LIGHTS USING THE 3 BUTTONS IN THE BOTTOM RIGHT HAND CORNER OF THE REMOTE CONTROL

### **IMPORTANT!**
